

Hackathon '2023

GROUP 1
Problem 3

TECH MAVERICKS

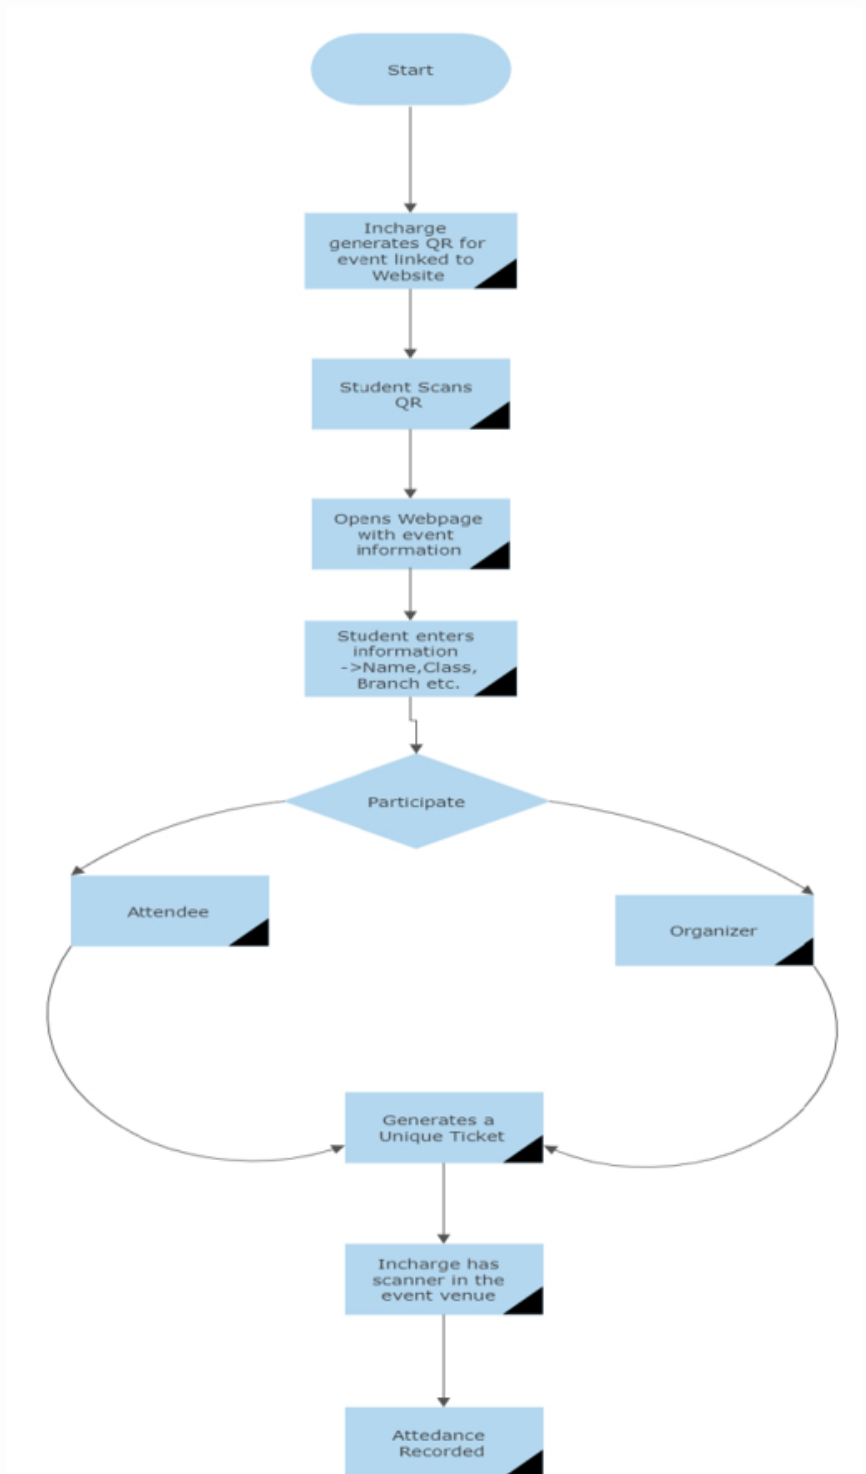

PROBLEM

Prepare a Solution to allow an activity Incharge to register , Mark attedance, see student involvement level (Participant/ Organizer/Winner) In an event and Generate a non temperable E-certificate

SOLUTION

To streamline the activities of College Events so we can create a single, comprehensive form that includes all necessary information accessed with the help of QR code. The form should be easy to access and use, with clear instructions and prompts for required fields. We can also use technology to automate the process and reduce the need for manual data entry.

The form can be modified to generate forms for different events. DataBase implemented can directly generate different certificates to be mailed to registered e-mail ids.

Benefits

- No need for paperwork for registering, attendance and certificate generation
- Easy to use UI design
- Chatbot for more information about the subject and guest lectures

Technologies

- Webpage-HTML,CSS
- Form Responses- Js
- Chatbot-Java
- DB-Google Sheets
- Server -Apache
